STATEWIDE BEFORE CONVENTION AT PHOENIX

Fourteen Propositions Submitted to Arizona Law Framers On Tuesday.

Phoenix, Ariz., Oct. 18.—Statewide prohibition, woman suffrage, for separate submission and the recall were among the propositions introduced in the constitutional convention today. Twenty-five percent is required for the recall petition.

Fourteen new propositions were submitted this morning. They included one for primary elections, one relating to corporations, personal liability law and an anti-pass provision. The convention received notice from the Anti-Saloon league that Safford went dry yesterday in the local option election.

To Eliminate Wildcat. Constitutional provisions designed to eliminate "wildcat" corporations and curb irresponsible promoters who take advantage of the liberal corporation laws of Arizona, have been drafted by delegate Ellinwood. As drafted, the proposed constitutional articles make stockholders liable for corporate debts as well as unpaid portions of capital stock and provides a corporation tax in proportion to capitalization.

Another section is designed to prevent foreign corporations from doing business in the new state under more favorable conditions than domestic concerns.

A petition signed by 500 working men of Globe was read to the convention. It asked for constitutional provision that would compel corporations to employ at least 80 per cent American labor.

am authorized to say that Mr. Justice Wright concurs in these views. (Signed) "William H. Pope, Chief Justice."

After reading the above decision any fair minded person or newspaper will not criticize a court for issuing an injunction to stay the paying out of public monies, until the court can pass upon the case in quo warranto, as to whether or not there is any authority of law to build a court house and jail at Carrizozo. (Signed) Lincoln Citizens.

A CONTINUUM. Why do people who do not eat pork as meat continue to use it in the form of lard? Lard is just as indigestible as pork. In a recent article on cooking fats, Dr. Paige Emery, the eminent specialist, writes as follows: "The healthful and economical solution of the cooking fat problem is the use of Cottole. Cottole is purely a vegetable product, is easily assimilated, and aids digestion. Dietetic experiments have shown conclusively that when a vegetable oil is used in cooking in preference to animal fat, it is more easily assimilated and yields far more nourishment to the body."

Cottole is not only wholesome; it is economical as well, one-third less being required.

FORMER EL PASOAN ENDS TWO LIVES

J. J. Payne Kills Wife at Joliet, Illinois and Then Shoots Himself.

J. J. Payne, who according to press reports, resided with his wife on the streets of Joliet, Ill., Tuesday and then fired a bullet into his own brain, was well known in El Paso, having been an employee of the Southwestern during the early part of the year 1910.

The hand that fired the shot which killed Mrs. Payne and then committed self murder, was the only hand that was left him by a railway accident in February last in which Payne lost his left arm by amputation at a local hospital after the accident. He was carried to Hotel Dieu on Feb. 22 of this year and remained there a month after having the injured arm amputated.

Payne was well known among local railroad men and before coming to El Paso he was yard master of the Southern Pacific at Los Angeles. The cause assigned by the press reports to Payne's double murder was jealousy.

His wife is said to have left him and gone to reside with a sister, Mrs. Chris. Brugeman, in the suburbs of Joliet, Ill., and Payne is said to have followed her through several states finally meeting her on the public square at Joliet, where the alleged double murder occurred.

RURAL POPULATION TO SHOW DECREASE

Central Western States Suffer From Farm Exodus to Cities.

Washington, D. C., Oct. 18.—The census figures for the state of Illinois announcement of which are expected soon, will show a decrease in the rural population, according to the prediction of census officials, who likewise anticipate a falling off in the rural population of Indiana and Ohio, and possibly other middle western states.

The reasons given are that improvements in machinery enables the farms to be worked without so much manual help and the drift of the younger generation to the new lands of the west. The natural "city drift" is also an element.

SNOW IN UTAH IS DELAYING TRAFFIC

Telegraph and Railway Service Demoralized by the Severe Weather.

Denver, Colo., Oct. 18.—A heavy rain, which early this morning turned into snow in the mountains of eastern Utah, and western Wyoming demoralized the transcontinental telegraph service for several hours and resulted in some delay to trains.

The Western Union Telegraph company reports three miles of poles down near Uintah, Utah, in Weber Canon district.

The rain and snowfall extends into Idaho and Montana and is working eastward, followed by colder weather.
